

2020 Annual Report

Success

2020 Has been a challenging year for everyone. Despite these challenges, the Swannanoa Valley Museum continues to thrive and grow. This would not be possible without the support and love we have received from our community. We can say with pride that we have ended our fiscal year in the black. This is the 31st year that we have accomplished this. Our other successes have been the installation of the lift to our second floor gallery. This lift allows all of visitors to visit the "Our Pathways" Exhibit. We were able to install a beautiful butterfly garden behind the museum. This garden furthers our mission to educate the public about not only the history Of the Swannanoa Valley but its ecology as well. This garden was made possible by a generous sponsorship from the Black Mountain Savings Bank.

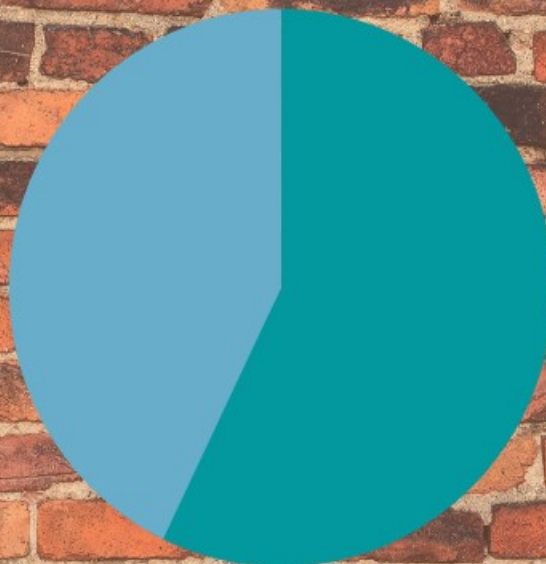

April 2020 Lift Installation.

June 2020 Butterfly Garden.
